

This is an important message from Alert Pinellas and Pinellas County Government.

Dear Pinellas County Utilities Customer,

The Southwest Florida Water Management District voted to extend the Modified Phase 1 Water Shortage Order to **September 1, 2024**, due to a lack of consistent and substantial rainfall in our region.

This requires Pinellas County Utilities (PCU) customers to continue limiting watering to one day per week using the approved watering schedule for your area. This applies to reclaimed, potable, well, lake or pond water sources.

Visit pinellas.gov/water-conservation for up-to-date information on watering schedules, water conservation tips and more.

We appreciate your cooperation and understanding.

Sincerely,

-Pinellas County Utilities
